

To use RMeasimaths at home:

The program last for about 10 minutes guiding the student through various maths questions checking for both accuracy and speed. It is therefore important to complete the session without a break (it tells you when time is up). Try to give an answer even if you are unsure and click the blue arrow in the bottom right to move on.

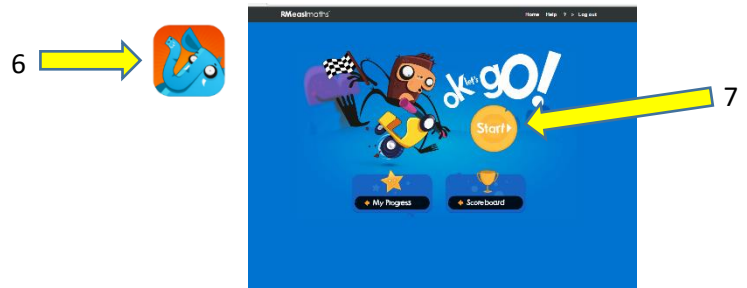

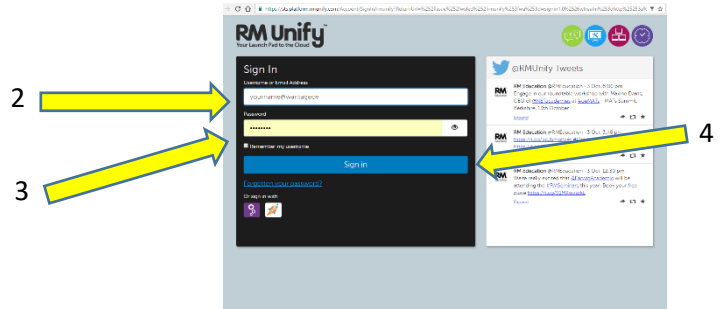

The program needs to be completed independently by the child who has logged in.

How to Access away from School:

On a PC :

1. Open <https://wantagece.rmunify.com> in a browser.
2. Type in your school computer username (firstname/initial of surname/number)
3. Type your school computer password
4. Click on the blue 'Sign in' Button.
5. This will take you to the 'Launch Pad' page.
6. Click on the RMEasimaths tile
7. To start a maths session click on the yellow 'Start' circle.

On an iPad or tablet:

- Download the RMeasimaths app in the app store (free).
- Log in with your school username @wantagece
- And password. Click on the **RM Unify login** button

Some iPads require you to run RMEasimaths through Puffin Academy (free to download from the App Store – not the Puffin Web Browser or Browser Pro)
