| <p><b>Year 5 Term 6<br/>Summer 2018</b></p>  | <p><b>Science</b><br/>The classes will be investigating forces and motion, including gravity, water resistance and friction. The class will be designing and conducting experiments each week, recording and evaluating their findings. The children will learn how to design a 'fair test' using control variables. They will learn about some famous Scientists from Ancient Greek times.</p> | <p><b>R.E.</b><br/>Continuing our study of Christianity, we will be learning about famous Christians. The children will investigate and evaluate how following the Christian faith effects a Christian's everyday life and how this can benefit others.</p> | <p><b>P.E. (Tuesday and Friday)</b><br/>Rounders - we will be developing our bowling, batting, fielding as well as teamwork and turn-taking and competitive spirit.<br/>Athletics- We will be working to hone our skills for sports day. As well as our leadership and teamwork skills. The children will be learning to lead exercise routines in small groups, demonstrating leadership, teamwork and good technique.</p> | <p><b>History &amp; Geography</b><br/>We will be learning to find Greece on a world map, describe its climate and terrain, while building an understanding of the Ancient Greek culture. We will consider the short and long-term impact of influential Greek inventions including the aqueduct, chewing gum and democracy. We will also learn how historians find out about the past through examining primary and secondary sources.</p> |
| <p><b>English</b><br/>We will be reading tales from 'The Odyssey' innovating, creating and performing plays, based on Odysseus' adventures. The children will learn a range of creative writing techniques and develop an engaging speaking style. We will be looking at a range of non-fiction texts and their particular features. We will discover more about the Ancient Greeks through reading a variety of myths about their Gods and Goddesses.</p> | <p><b>French</b><br/>We will be learning shape and colour vocabulary and grammar skills to describe and express opinions about artwork. They will continue to learn about the importance of masculine, feminine and plural and how nouns and adjectives 'agree'.</p>  | <p><b>Music</b><br/>Appreciating great composers, genres and development of music. Explore and create digital compositions.</p>   | <p><b>Design Technology</b><br/>The children will research and investigate the components and working of a Greek chariot. They will design, build and evaluate their own Greek chariots - using giant junk modelling materials. We will be collecting materials from 25<sup>th</sup> June.</p>  | <p><b>Computing</b><br/>Year 5 children will develop their research skills by using the internet to find out about a famous Christian. They will use Publisher; choosing a range of text sizes, text boxes, fonts, and pictures. They will present their work to the class.</p>  |
| <p><b>Maths</b><br/>We will be revising the skills which we have learned this year, with a focus on exam technique. The children will strengthen their skills in finding fractions and percentage. We will also be working to consolidate and extend mathematical fluency in the four operations.</p>  |   | <p><b>Art &amp; Design</b><br/>The children will be creating 'cut out' artwork, inspired by the French artist Matisse.</p>  |   |  |
