

Communication, Language & Literacy

- We will continue to develop the children’s literacy skills through a variety of imaginative and role play scenarios. We will use the “Early Phonics” computer program to further extend their awareness of letters and sounds and focus on ‘sounding out’ simple words. The children will be encouraged to apply their phonic knowledge to write labels & captions.

Personal, Social & Emotional Development

- We will focus on ‘Changes’ and supporting children who are moving on to new schools and classes.
- We will take part in a variety of special events together.

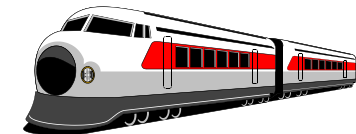

Mathematics

We will:

- continue to consolidate th children’s counting skills and numeral recognition.
- focus on developing comparative vocabulary, spatial awareness and problem solving skills through a variety of model-making and construction activities.

Let's Go!

Understanding the World

We will:

- visit Roves Farm
- compare a variety of moving objects.
- talk about our holidays and learn about some other countries.

Physical Development

We will:

- focus on developing the children’s co-ordination skills.
- learn about being safe in the sun and around water.
- learn about keeping healthy.

Technology

We will :

- practise programming our “Bee Bots”
- use the remote controlled car and the digital camera.
- use the computer to find out about another country.

Expressive Arts and Design

We will:

- combine media to make a variety of patterns and models.
- sing songs and listen to music from other countries.
- act out some stories and make props to support play.
