

Communication, Language & Literacy

This term the children will develop their language skills through practical activities such as role play (supermarket / café / market stall). We will listen to some traditional tales and focus on listening to and distinguishing sounds.

Personal, Social & Emotional Development

We will help the children to settle into their new environment, familiarize themselves with new routines and show increasing independence in selecting & carrying out activities. Our focus will be "New Beginnings"

Mathematics

We will focus on:

- counting to 5 and recognizing numerals to 5.
- using position and size related vocabulary .
- representing numbers using our fingers and marks on paper.

Wonderful Wantage!

Physical Development

We will encourage the children to explore the outdoor environment and use equipment appropriately. We will talk about healthy food and encourage the children to help prepare fruit & vegetables at snack time. The importance of hand washing will be emphasized.

Understanding the World

Some of us will make local visits to the market and Mill. We will learn about how some food is produced and prepared through harvesting our vegetables and a variety of cooking activities. We will explore our school grounds.

Technology

The children will be developing mouse skills. We will focus on using age-appropriate 'talking books'.

Expressive Arts & Design

The children will use a variety of objects for pattern making and printing. We will learn some new songs and rhymes.
