

### **Communication and Language**

We have been learning the story 'Let me come in' and using new vocabulary from the story such as 'cold', 'wintery' and 'frozen'.

### **Physical Development**

We have begun changing our clothes independently for PE. In these sessions, the children are learning how to follow instructions and move around safely in different ways. In class, we are continuing to develop our fine motor control and use of small tools such as scissors.

### **Personal, Social and Emotional Development**

Following the 'Dreams and Goals' topic from the Jigsaw framework, we have been setting ourselves goals and talking about how to work towards them as well as encouraging others to achieve their goals.

## **Foundation Term 3**

### **How do we know it's winter?**

### **Understanding the World**

We have been observing the change in the season and in the weather. We've made the most of the weather to experiment with freezing water overnight.

We will also be learning the story behind Chinese New Year and discussing how this is celebrated.

### **Literacy**

The children continue to learn phonics within their Read Write Inc groups. Please ensure you send the children's home reading folders in every day.

### **Maths**

We will continue to develop the skills of subitising and counting. We will also be comparing numbers and exploring composition on numbers to 6.

### **Expressive Arts and Design**

We have been exploring a range of techniques to create winter artwork including painting with frozen paints and creating snowflakes from loose parts.
